

ACT82002 - Alibaba Cloud MaxCompute Essentials

MaxCompute (formerly ODPS) provides a fast option for hosting GB/TB/PB-level data warehousing. MaxCompute provides you with a comprehensive data importing solution and a variety of classic distributed computing models that enable you to solve your massive data calculation problems quickly, to effectively reduce business costs and protect data. In this course, we show you how to use MaxCompute, DataWorks, and Quick BI to build big data applications and solutions.
