

NetMRI CCS Scripting Course (NMCS)

Learn how to gain efficiency by automating repetitive and time-consuming NetMRI Command Line Interface (CLI) tasks using the Infoblox CCS Scripting language. Study the rules of CCS scripting and explore introductory to advanced scripting solutions in hands-on labs. Discuss how to automate your organization's existing CLI tasks with CCS scripting.

Audience

This is an advanced-level course for Network Engineers and Network Operation Center staff who want to use Infoblox CCS scripting to automate their Command Line Interface (CLI) tasks.

Pre-Requisites

Attendees should have completed NetMRI Configuration and Administration (NMCA).

Topics Covered
